

# Honeywell Announces Obsolescence of Select Limitless™ Wireless Product Lines

September 17, 2018

Due to a key component obsolescence, Honeywell is announcing the last time buy for the WGLA, WLS, WOI, WDRR, and WPMM Limitless™ Wireless product lines. Honeywell values its customers and realizes that incorporating wireless products from another manufacturer into their applications may require transition time. Thus, Honeywell will facilitate a last time buy from customers to help ease that transition.

For clarification, the WBX, WPS, and WMPR product lines are unaffected. Additionally, two WOI part numbers (WOI2B12BPDY001, WOI2B12BPEY002) will continue to be available.

There is a limited supply of inventory, and additional components may be limited by supply constraints. Accordingly, in the event the inventory has been depleted, the opportunity for the last time buy of the Affected Part Numbers may close sooner than the dates mentioned in the Timeline of Events hereinbelow.

## Affected Part Numbers

This announcement will serve as the formal communication that the following SKUs (please consult the spreadsheet enclosed for a complete list of retired part numbers) will no longer be available for sale in accordance with the Timeline of Events (shown below).
